CLIMATE ACTION PROJECT

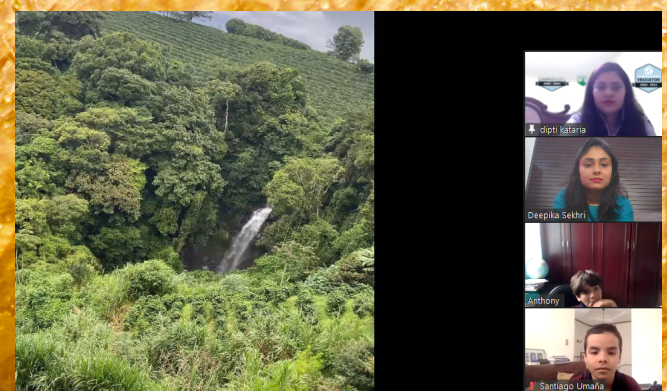

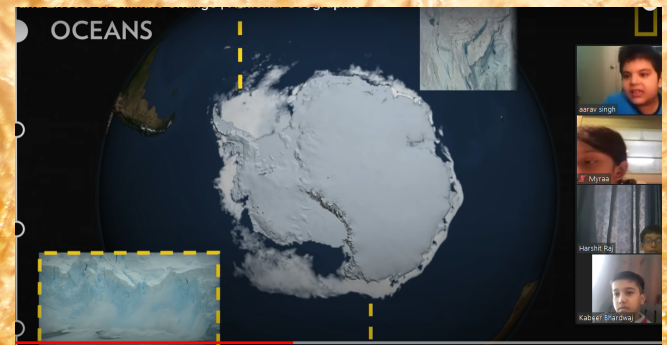

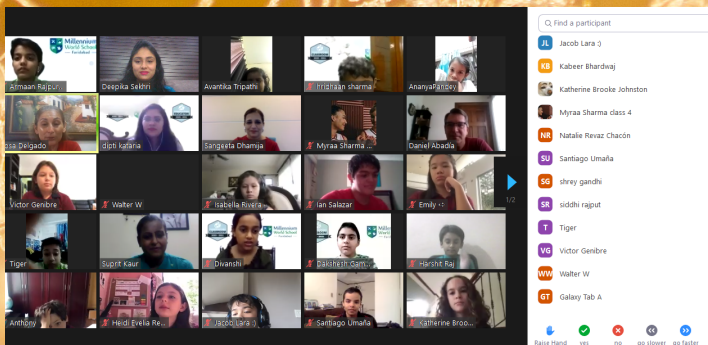

"We have a single mission to protect and hand on the Planet to the next generation."

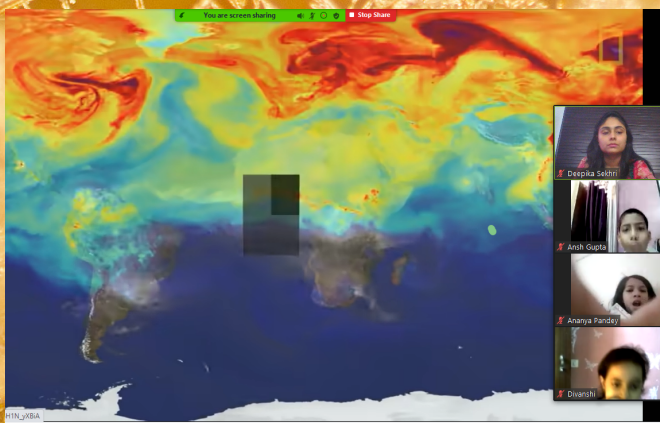

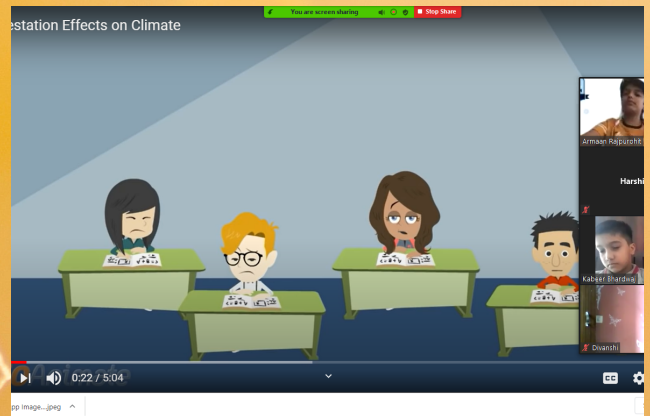

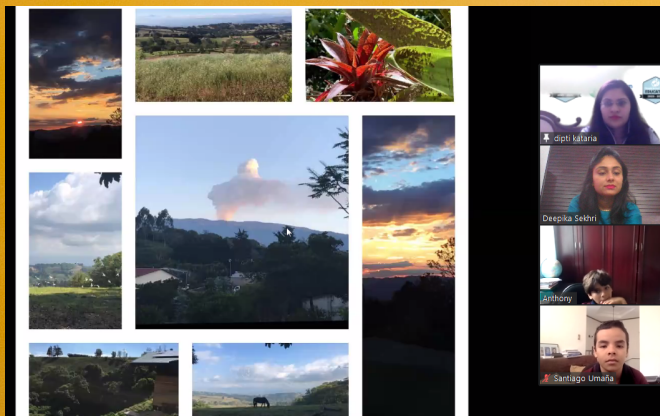

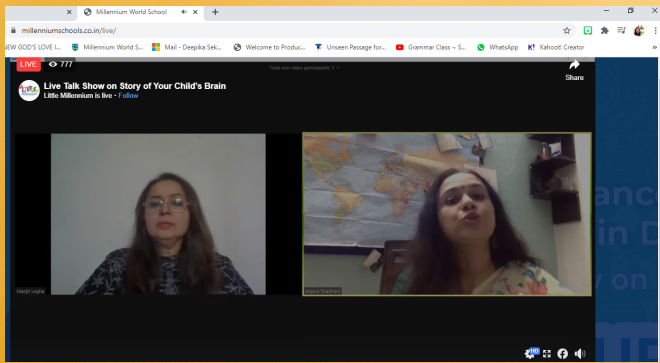

MWS Faridabad took a step forward towards the Climate Action Project known Internationally. This was a 6 weeks' project which was being taken up by the Millenniumites guided by their facilitators in order to bring the change. Students of Grade -3 created posters in order to depict various reasons which contributes in affecting the environment. Facilitator also gave different solutions to control this climate change through various means.

VIRTUAL INTERACTION WITH STUDENTS OF COSTA RICA ON THE EFFECTS OF CLIMATE CHANGE ON OUR ENVIRONMENT

Millennium World School, Faridabad organized a virtually interactive session on 13th October 2020 related to Climate Change with the students of American International School from Costa Rica which is a country in South America. Students of Grades- III, IV and V were the part of this enriching and informative session. The students from both the schools shared their valuable insights through PowerPoint presentations showing various causes and effects of climate change happening locally as well as globally. They discussed about their schools and ways to help in controlling the situation of climate change worldwide.

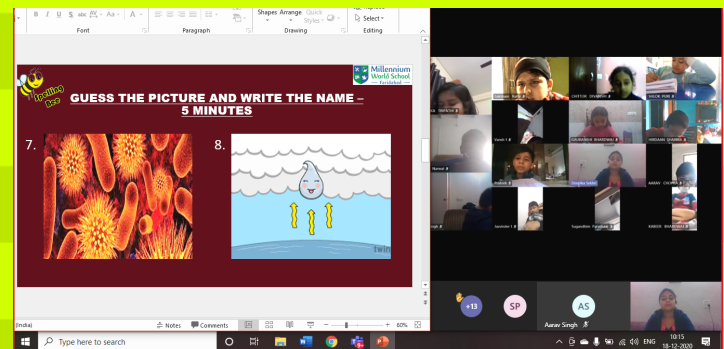

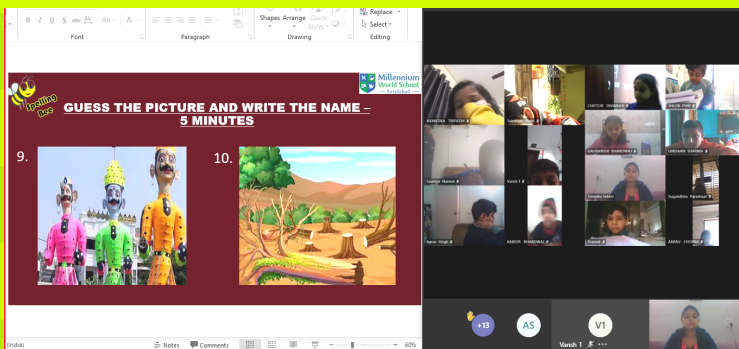

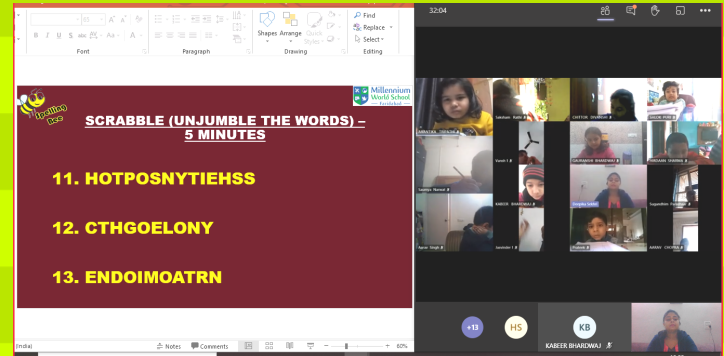

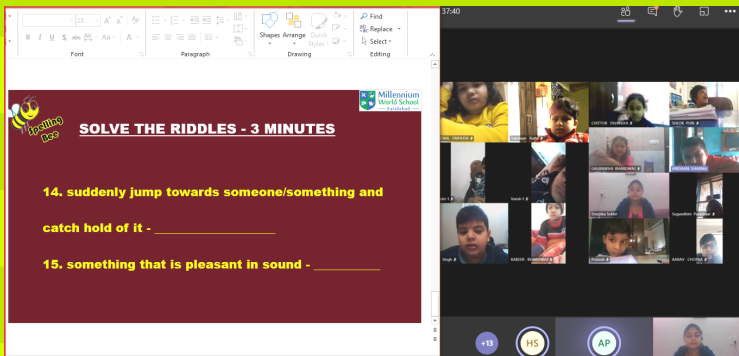

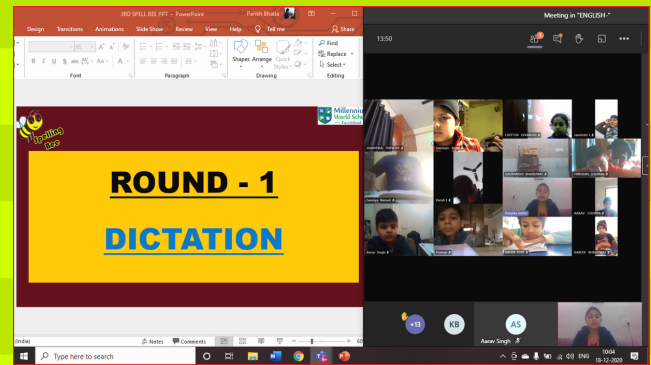

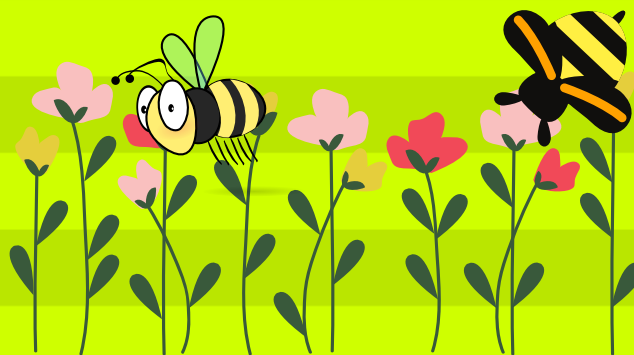

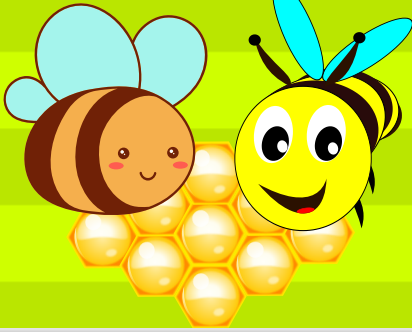

SPELL BEE COMPETITION

Learning a language is the foremost step in the life of a child as it helps him/her to communicate with the world and a school plays a vital role in training the child in this direction.

The Spell Bee Competition was held at Millennium World School, Faridabad aimed at creating awareness of the possibilities of using varied words in written expression and to add words to the existing vocabulary of students. The competition comprised of four rounds ie. Dictation, Guess the Picture, Scrabble and Riddles.

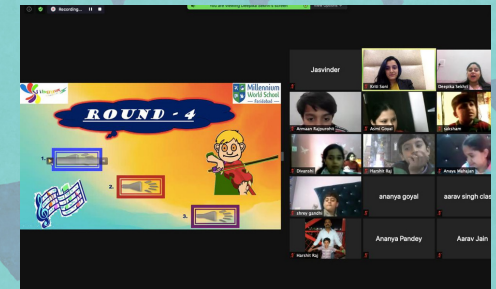

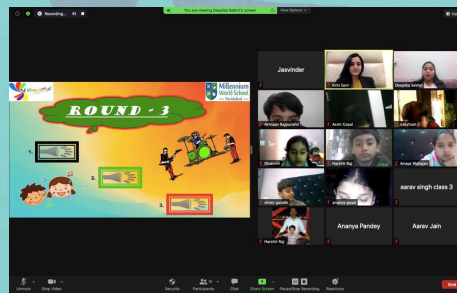

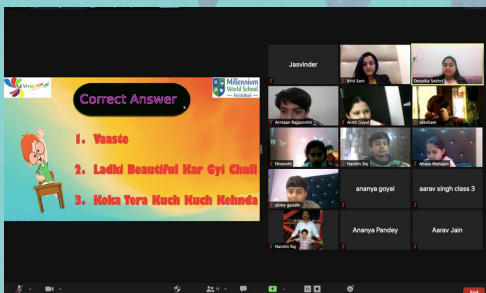

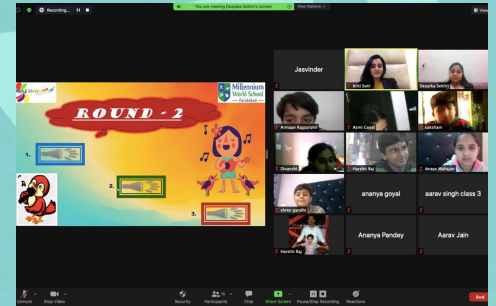

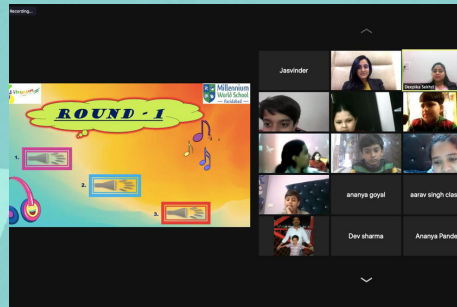

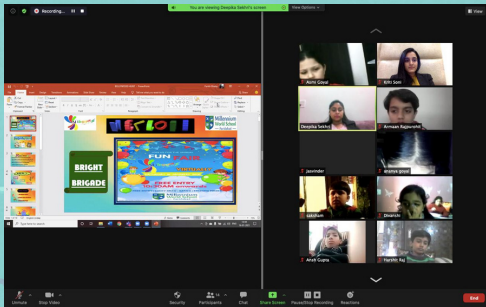

The objective of the competition was to enhance the spelling and literary skills of the children. Encourage them to explore the English language, expand their vocabulary and improve their communication and comprehension skills.

ANNUAL FUN FAIR- VIBGYOR 2021

“Play is the way kids try the world on for size and imagine their place in it.” Raffi.
Indeed, fun and play are an essential and unavoidable part of a child’s life which, if withdrawn from their lives, will be a huge tragedy. But we at Millennium World School, Faridabad believe in providing our students with more opportunities of learning in a fun-play environment! Sticking to this notion of nurturing our young creative minds in an open environment, we organized a Winter Carnival 2021 - VIBGYOR, Fun with Colors! This was a one-of-a-kind Mega Fun Virtual Festival. Students of Grade-3 and 4 played various games like Bollywood Hunt, Brain Twisters, Memory Game and Scavenger Hunt.
